

(d) (Inactive). The monthly total and permanent disability benefit will be no less than \$1,500 if (1) the total and permanent disability arises from other than League football activities while the Player is a Vested Inactive Player, or (2) the disability(ies) arises out of League football activities, and results in total and permanent disability after the later of (i) age 45, or (ii) 12 years after the end of the Player's last Credited Season. The minimum benefits provided under this Section 5.1(d) will be offset by any disability benefits provided by an employer other than the League or an Employer, but will not be offset by worker's compensation.

(e) (Dependent Child). An additional benefit of \$100 per month for each child who is a Dependent will be payable during the period of total and permanent disability; provided, however, that notwithstanding anything in this Article 5 to the contrary, the additional benefit of \$100 per month will terminate as soon as such Dependent (in respect of whom it is paid) ceases to be the Player's Dependent.

A Player who becomes totally and permanently disabled no later than six months after a disability(ies) first arises will be conclusively deemed to have become totally and permanently disabled "shortly after" the disability(ies) first arises, as that phrase is used in subsections (a) and (b) above, and a Player who becomes totally and permanently disabled more than 12 months after a disability(ies) first arises will be conclusively deemed not to have become totally and permanently disabled "shortly after" the disability(ies) first arises, as that phrase is used in subsections (a) and (b) above. In cases falling within this six- to twelve-month period, the Retirement Board or the Disability Initial Claims Committee will have the right and duty to determine whether the "shortly after" standard is satisfied.
